Annual Review of Communications, Vol. 57

Available November 2004

Format: Hardcover, 1,442 pages

ISBN: 1-931695-28-8

Price: \$495.00

[Overview](#) · [Table of Contents](#) · [Features](#) · [Organizations](#)

Table of Contents

Section I: Executive Perspectives

Accelerating Cash Velocity in the Telecom Industry

Pascal Aguirre, Senior Vice President and Solution Providers Practice Leader, ADVENTIS

Outsourcing Communications Management: An Adaptive Technology Strategy

Dan Allison, U.S. Vice President of Global Sales and Client Solutions, EDS

Next-Generation Broadband Networks: IP Video Delivery over FTTP

Naveen S. Bisht, Founder, President, and Chief Executive Officer, Nayna Networks, Inc. James Connor, Director of Marketing, Nayna Networks, Inc.

The Untold Telecom Story: How the Industry Lost its Grip on ROCE (and How to Get It Back)

Didier Bonnet, Vice President, Cap Gemini Ernst & Young

Avoid the Best-of-Breed OSS Dilemma for Broadband Applications

Max Bornschlegl, Vice President, Systems Engineering Management Systems, Siemens AG, ICN

Voice over IP (VoIP) Enhanced Services

Peter Briscoe, President, Founder, and Chief Executive Officer, Convedia

Auto-Identification and the New World of Logistics

The Impact of Enabling Technology on the Diffusion of Auto-ID Technologies
George Brody, Founder and Chief Strategy Officer, Globe Ranger Corporation
Hanns-Christian L. Hanebeck, Director, Enterprise Applications, Globe Ranger Corporation

Software-Driven Product Design Architectures

A Path to Design Flexibility
David A. Carnevale, Vice President of Marketing, Path 1 Network Technologies Inc.

Wireless Carrier Reform Is Essential for Data Services Success

Andrew J. Cole, Senior Vice President and Wireless Practice Leader, ADVENTIS

TV over DSL: xDSL Switches versus DSLAM Upgrade

Christian Crickx, Chairman, Chief Technology Officer, and Co-Founder, Avilinks

Home Networks: Opportunity or Challenge?

Stewart Davies, Chief Executive Officer, BT Exact

ICT: The Driving Force behind the Digital Networked Economy

Sally Davis, President, BT Global Products and Customer Service, BT Global Services

A New Business Imperative: Toward Automatic, Transparent, and Continuous Sensitive Data Protection

David Duncan, President, encryptx Corporation

Ethernet in the First Mile

Making Universal Broadband Access a Reality

Craig Easley, Chief Technology Officer, Extreme Networks

Video: By Broadcast or IP?

James O. Farmer, Chief Technology Officer, Wave7 Optics, Inc.

Wi-Fi for All

A Proposed Business Model for Home Wi-Fi Adoption Offers Operators New Sources of Revenue

Greg French, President, Octave Brand Communications, Inc.

Are You Ready for a Recovery?

Thomas Ganswindt, President, Siemens ICN

Next-Generation Trading Networks

An Internet-Based B2B Community Model for Today and Tomorrow

Gary Hoyer, Chief Technology Officer, ANXeBusiness Asia Pacific

Telecommunications Applications

Michael S. Irizarry, Executive Vice President and Chief Technology Officer, US Cellular Corporation

Intelligent Revolution for Metro SANs

Elke Jahn, Chief Executive Officer, Lightmaze AG

Toward Intelligent Real-Time Web Services

Gabriel Jakobson, Chief Scientist, Altusys Corp.

Triple Play Networks Ready for Delivery

Vladimir Kaminsky, President, Practel, Inc.
Kamal Raychaudhuri, Director of Technology, EMW, Inc.

U.S. Local-Exchange Carrier Strategic Directions

Michael Kennedy, Ph.D., Co-Founder and Managing Partner, Network Strategy Partners, LLC

Can Broadband Wireless Save the CLECs?

Anthony J. Klinkert, General Manager, Klinkert and Associates, Inc.
Morris W. Westerhold, President, TPC Consulting, Inc.

Digital Leakage

What Is It? Why Is It a Problem? And What Can Be Done to Address It?

Martin Lambert, Chief Technology Officer, Sealed Media

Beyond Broadband Access

Sanghoon Lee, Executive Vice President, Network Group, KT

The Roadmap to E-Communications

Mark Lieberman, Chief Executive Officer, Interactive Video Technologies, Inc.
Janet Raupp, Director of Marketing, Interactive Video Technologies, Inc.

Peer-to-Peer File Sharing

The Impact of File Sharing on Service-Provider Networks

Marc Morin, Co-Founder and Chief Technology Officer, Sandvine Incorporated

Service-Provider Physical Infrastructure Security and Surveillance

Tom Niewulis, President, NCDSCS, Inc.

The Telecom Downturn: Could It Have Been Predicted?

John H. Nugent, Chief Economic Officer, Hilliard Consulting Group, Inc., and Assistant Professor, Telecommunications and Strategy, Graduate School of Management, University of Dallas, and Founder and Director, Center of Information, University of Dallas

The Telecommunication Needs of Manufacturing and Construction

Joel Orr, Vice President and Chief Visionary, Cyon Research Corporation

BSS/OSS Legacy Systems*A Transition Strategy and Tools*

Stephen Parker, President and Chief Executive Officer, Eftia OSS Solutions, Inc.

Technology-Enabled Convergence for Communications, Information, and Entertainment Services

Girish Pathak, Chief Customer Strategist, TELUS Communications Inc.

Internal Computer Investigations as a Critical Control Activity under Sarbanes-Oxley

John Patzakis, President and Chief Executive Officer, Guidance Software, Inc.

Victor Limongelli, General Counsel, Guidance Software, Inc.

Uniting Videoconferencing and Video Streaming

Tom Pinckney, Chief Technology Officer, STARBAK Communications

A Change in Philosophy Required*Successful Telcos Will Evolve from a Closed-Network Model to an Open-Service Model*

Krish Prabhu, President and Chief Executive Officer, Tellabs, and Former Vice Chairman of the Board of Directors, ECI Telecom

Operator-ENUM Architecture*System Overview*

Douglas Ranalli, Founder, NetNumber, Inc.

The Future of the Internet-Revisited

Terence W. Rogers, President, Advanced Network and Services

The Gating System Event to Broadband Utilization

David S. Roland, President, Advanced Intelligent Networks Corporation

Ethernet over Copper Generates New Revenue Streams to Service Providers

Yossi Saad, Vice President, Product Marketing, Actelis Networks, Inc.

Can WLANs Have a Ubiquitous Future?*A Technology Perspective on Emerging Trends and Requirements*

Dr. Sriprakash Sarathy, President, synOvia Inc.

Dr. Khalil Shujaee, Chairman, synOvia Inc.

Dr. Sanjay Moghe, Chief Executive Officer, synOvia Inc.

Optical Wireless: Technology, Applications, and the Economics of Last-Mile Connectivity

Vidya Sharma, Director, Strategic Marketing, LightPointe Communications

Heinz Willebrand, Ph.D., Founder and Chief Technology Officer, LightPointe Communications

VoIP Deployment Considerations

Manickam Sridhar, Chief Technology Officer, Sitara Networks, Inc.

State of the DSL Industry

Tom Starr, Chairperson and President, The DSL Forum

Michael Brusca, Vice President of Strategy, The DSL Forum Board of Directors

Software Dependability and Customer Trust on New Technology

Ari Takanen, Chief Executive Officer and Founder, Codenomicon Ltd.

Distributed Real-Time Event Mining

Angus Telfer, Chief Technology Officer, INETCO Systems Limited

Learning from History*Identifying, Packaging, and Pricing Next-Generation Telecom Services*

R. Brough Turner, Senior Vice President and Chief Technology Officer, NMS Communications

Wireless Cyber Attacks*The Battle Begins*

Clifford P. Wagner, Jr., Executive Vice President, Marconi Wireless

The Lean Operator*Strategy and Survival Guide for Service Providers*

Keith Willetts, Chairman, The TeleManagement Forum

Solving the Server I/O Bottleneck: An Evaluation of the Alternatives

Laurie Yoler, Vice President, Marketing and Business Development, Precision I/O, Inc.

Bob Felderman, Chief Technology Officer, Precision I/O, Inc.

Section II: Business, Marketing, and Regulatory Issues

Best Practice in Telecom Service Innovation and Development

Andy Belt, Senior Fellow, ADVENTIS
Bob House, Vice President, ADVENTIS

Shifting to Wireless Broadband Infrastructure: Why OPEX Functions Rule the Last-Mile Dilemma

Frank J. Bernhard, Technology Economist and Managing Principal, Supply Chain and Telecommunications Practice, OMNI Consulting Group LLP

The Holy Telco Grail: Service Bundling Success with an Improved Back Office

Greg Bolino, Vice President of Worldwide Sales, Telution, Inc.

Prospects for M-Commerce in Developing Countries

Amitava Dutta, Professor and Le Roy Eakin Chair in E-Commerce, School of Management, George Mason University
Varadharajan Sridhar, Professor, Information Management Area, Management Development Institute

A Review of the Impact of the Telecommunications Act of 1996 on ILECs

Ali Eskandarian, Associate Dean, College of Professional Studies, The George Washington University
Ayman Nasser, Independent Consultant
Mohamed Eltoweissy, Associate Professor, Department of Computer Science, Virginia Tech

Corporate Expectations of the IT Department in an Age of Terrorism

Ensuring "Battle Readiness"
Robert S. Fleming, Professor, Management and MIS, Rowan University

Next-Generation Networks

A European View
Howard Green, Network Strategy Director, Office of Chief Strategy Officer, Marconi

Strategies for Insuring Universal Service in an Era of Rapid Industry Change

Mike Heller, Senior Manager, Service-Provider Marketing, Service-Provider Line of Business, Cisco Systems, Inc.

Economics of Broadband Access Network Upgrade Strategies

The Developing Countries Perspective
Milan Jankovic, Assistant Professor, Community of Yugoslav PTT
Zoran Petrovic, Professor, Faculty of Electrical Engineering, University of Belgrade
Miroslav Dukic, Professor, Faculty of Electrical Engineering, University of Belgrade

How Do You Spell Return on Investment? *Realizing, Optimizing, and Maximizing ROI Is Simply a Matter of Selecting the Right Technology and the Right Box for the Right Applications*

Lior Kahan, Marketing Manager, Optical Networks Division, ECI Telecom

Making Broadband a Mass-Market Reality in Germany

Roland Kittel, Member of the Board, T-Com

Deregulation of Retail Local Services Is Both Appropriate and Inevitable

Joseph S. Kraemer, Director, Law and Economics Consulting Group (LECG)
Richard O. Levine, Director, Washington, D.C. Office, Law and Economics Consulting Group (LECG)
Randolph J. May, Senior Fellow and Director, Communications Policy Studies, The Progress and Freedom Foundation

Industry (Still) on the Brink

Issues, Implications, and Timing of the Telecom Industry Turnaround
Mitch Mitchell, Vice President, A.T. Kearney
Ken Tan, Principal, A.T. Kearney

Data Warehousing and Mobile Telephony

Developing a Strategic Vision for Voice, Data, and Content Analysis from 2.5G and 3G Services
Martin Morgan, Director, Global Industry Consulting, Global Mobile Communications, Teradata

Collaborative Networking

Unified Communication Solutions That Work for Your Business
Jimmy Ng, Business Development Manager, Network Services, Hewlett-Packard

Services

State of the CLEC Union: The New Competitive Reality

Tim Nugent, Director of Business Development, Telution, Inc.

Broadband

The Power for the Fixed Telecom Business Transformation

Manuel Echánove Pasquín, General Director, Strategy and Business Development, Telefónica de España, S.A.U., Spain

A Road Map to Performance-Based E-Government

Lana Phair-Sutherland, President, Phair-Sutherland Consulting

Douglas Matatall, President, iPhoenix Corporation

Expanding Globally

A Strategic Framework for Telecommunications Service Providers

Steven R. Powell, Professor, CIS Department, California State Polytechnic University, Pomona

The Ten Mortal Sins of Outsourcing

Mark J. Power, President, ROS, Incorporated

Carlo Bonifazi, Vice President and Partner, ROS, Incorporated

Kevin C. Desouza, Associate Professor, Department of Information and Decision Sciences, University of Illinois at Chicago

The Importance of Global Management of Laboratories for Telecommunications Carriers

Normand Primeau, Associate Director, Bell Labs Process, Broadband and Optical Network Technology Development, Bell Canada, and Senior Member, Institute of Electrical and Electronics Engineers (IEEE)

Effect of Revenue Sharing Fraction and Market Size on Outputs and Profits for the Advanced Intelligent Network

Vinh Quan, Assistant Professor, Department of Mechanical and Industrial Engineering, Ryerson University

Scott Rogers, Associate Professor, Department of Mechanical and Industrial Engineering, University of Toronto

Enterprise CRA

An Integrated Approach to Revitalize Carrier Performance

Gary Ross, Principal, Connexⁿ Technologies

Venture Capital Investing in Today's Market

Signs of Recovery Breed Optimism, Caution

Subhash Roy, Principal, Kodiak Venture Partners

Using Accessible Data Sources to Determine Telecom Diffusion Capabilities of Developing Nations: A MENA Perspective

Stephen R. Ruth, Ph.D., Professor of Public Policy and Technology Management, The School of Public Policy, and Director, International Center for Applied Studies in Information Technology (ICASIT), George Mason University

Sarasin Booppanon, Ph.D. Candidate, The School of Public Policy, George Mason University

Ting Zhang, Ph.D. Candidate, The School of Public Policy, George Mason University

Telecommunications Policy and Regulation in the United States: A Perspective for Information Technology Managers

Satya Prakash Saraswat, Ph.D., Professor of Computer Information Systems, Bentley College

Section III: Network Technology and Electronic Design**New DSL Technologies Strengthen Phone Companies' Competitive Position**

William L. Abbott, DSL Systems Engineering Group, Texas Instruments, Inc.

DWDM: Changing the Landscape of the Photonics World

Dr. Mohammad S. Alam, Professor and Chair, Department of Electrical and Computer Engineering, University of South Alabama

Pavani Polu, Graduate Student, Department of Electrical and Computer Engineering, University of South Alabama

Praveen Panati, Graduate Student, Department of Electrical and Computer Engineering, University of South Alabama

Dr. Aed El-saba, Assistant Professor, Department of Electrical and Computer Engineering, University of South Alabama

Dr. Salim Al-sharif, Assistant Professor, Department of Electrical and Computer Engineering, University of South Alabama

Modeling Multimedia Content Semantics in MPEG-7 Using COSMOS-7

Marios C. Angelides, Professor of Computing, Department of Information Systems and Computing, Brunel University
 Athanasios Gkoritsas, Research Student, Department of Information Systems and Computing, Brunel University

The Public Ethernet Network: The Next-Generation Broadband Access Network

Michael Begley, Systems Engineer, Ericsson AB

Measurement and Characterization of Clock and Data Recovery Circuits for Gigabit Backplane Applications

Uwe Brand, Research and Design Engineer, Information and Communication Networks Group, Siemens AG
 Wilhelm König, Research and Design Engineer, ASIC Design Center of the Information and Communication Networks Group, Siemens AG

New Demands Call for a New Approach to Chip Design

Data Plane Processing with Configurable Architectures to Deliver High-Performance Embedded Signal Processing
 Matthew Byatt, DSP Marketing Manager, ARM Ltd.

Explosion of Communications' Processors

Jeff Cartwright, Vice President, Business Development, Obsidian Software

Bringing Carrier-Class Features to Ethernet-Based MANs

Nan Chen, Vice President, Marketing, Atrica Inc., and Founding President and Board Member, Metro Ethernet Forum

Fiber-Optic Infrastructure for Current and Next-Generation Data Communications

Casimer DeCusatis, Senior Technical Staff Member, IBM Server Division
 Larry Jacobowitz, Development Manager, IBM T.J. Watson Research Center

Intelligent Networks: Security Issues and Performance Evaluation

Christos Douligeris, Associate Professor, Department of Informatics, University of Piraeus
 Rosa Mavropodi, Research Assistant and Ph.D. Candidate, Department of Informatics, University of Piraeus

A CPL to Java Compiler for Dynamic Service Personalization in JAIN-SIP Servers

Paolo Falcarin, Ingegnere (Engineer), Dipartimento di Automatica e Informatica, Politecnico di Torino

Broadband Communications Based on Code Division Parallel Access (CDPA)

Saleh Faruque, Associate Professor, Department of Electrical Engineering, University of North Dakota

Providing Inclusive Video-Mediated Communication

Deborah Fels, Ph.D., P.Eng., Associate Professor, Information Technology Management
 Director, Centre for Learning Technologies, Ryerson University
 Bertha Konstantinidis, B.Sc., Centre for Learning Technologies, Ryerson University
 Jim Hardman, B.S.W., Canadian Hearing Society
 Cindy Carey, Staff Interpreter, Canadian Hearing Society
 Wendy Porch, M.Ed., Project Coordinator, Adaptive Technology Resource Centre, University of Toronto

Radical Photonics: Smart Investments in Winning Technologies

Steve Ferguson, Strategy Director, Office of Chief Strategy Officer, Marconi Communications

Increasing DSP Performance Breeds Unexpected Applications

Gene A. Frantz, Principal Fellow and Business-Development Manager, Digital Signal Processing, Semiconductor Group, Texas Instruments, Inc.

Intelligent Networking and the Information Economy

A Systems Theory Interpretation
 Richard A. Gershon, Ph.D., Professor of Telecommunications, Department of Communication, Western Michigan University

Passive Optical Networks: Next-Generation Ultra-Broadband Access

Nasir Ghani, Assistant Professor, Tennessee Tech University
 Zhensheng Zhang, Senior Scientist, San Diego Research Center
 M. Yasin Akhtar Raja, Professor, Physics and Optical Science Department, Center for Optoelectronics and Optical Communications, University of North Carolina - Charlotte

High-Capacity All-Optical Networks

John Medrano, Senior Computer Engineer, The Proteus Corporation
 Ahmed Musa, Ph.D. Candidate, Department of Electrical and Computer Engineering,
 University of Texas at El Paso
 Virgilio Gonzalez, Assistant Professor, Department of Electrical and Computer
 Engineering, University of Texas at El Paso
 Mehdi Shadaram, Briscoe Distinguished Professor and Chairman, Department of
 Electrical Engineering, University of Texas at San Antonio

Ethernet Transport Services: The Current State of the Art

Steve Gorshe, Principal Engineer, PMC-Sierra, Inc.

Grid Computing: Evolving Definitions and Implementations

John W. Hassell, Graduate Student, Telecommunications Systems, College of
 Engineering, The University of Oklahoma - Tulsa
 James J. Sluss, Jr., Professor, Telecommunications Systems, College of Engineering,
 The University of Oklahoma - Tulsa
 Hazem H. Refai, Assistant Professor, Telecommunications Systems, College of
 Engineering, The University of Oklahoma - Tulsa

Hybrid Transport Solutions for TDM/Data Networking Services

Enrique Hernandez-Valencia, Distinguished Member of the Technical Staff, Lucent
 Technologies

FTTP: Salvation or Smoke?

Clifford R. Holliday, President, B & C Consulting Services, and Analyst, Information
 Gatekeepers Inc.

Synthesis and Control of Soft Embedded Real-Time Systems

Pao-Ann Hsiung, Associate Professor, Department of Computer Science and
 Information Engineering, National Chung Cheng University, Taiwan, R.O.C.

The Dimensions of Pervasive Broadband

Nikil Jayant, Georgia Research Alliance Eminent Scholar and Chief Scientist, EGT

A Key Challenge for the Development of Future Intelligent Optical Networks: Polarization Mode Dispersion and Its Compensation

Yue-Feng Ji, Professor and Vice Dean, School of Telecommunication Engineering,
 Beijing University of Posts and Telecommunications
 Hong-Xiang Wang, School of Telecommunication Engineering, Beijing University of
 Posts and Telecommunications

Impact of Ultra Low-Loss Connectors on FTTH System Design

David Kozischek, Manager Strategic Technology, Corning Cable Systems

New Service Opportunities Arising from Emerging Broadband Access Options: Analysis of RFI Responses

David Ludlam, Principal Member, Discovery Consultancy Association
 John O'Connell, Architect, OpenCall Business Unit, Hewlett-Packard
 Warren Montgomery, Office of the Chief Technology Officer, Personeta
 Mona Johnson, Executive Director, VASA

Intelligent Lightpaths: Data Intensive Applications and Dynamic Waveswitching Networks

Joel Mambretti, Director, International Center for Advanced Internet Research,
 Northwestern University, and Director, Metropolitan Research and Education Network

Broadband Multimedia for the Mass Market

Scott McMahon, Marketing Communications Manager, Broadband Systems,
 Networks, Nokia Corporation

A Hybrid Measurement and Electromagnetic Field-Solver Approach for the Design of High-Performance Interconnects

An Investigation of Traces and SMA Transitions
 Scott McMorro, President, Teraspeed Consulting Group LLC
 Alfred Neves, Applications Engineer, TDA Systems

Virtual Private LAN Services: The Evolution of Layer-2 VPNs

Lindsay Newell, Director, Product Marketing, IP Division, Alcatel

Optimum Next-Generation Transport Network Architecture

Stephan Rettenberger, Customer Engineering, Marconi
 Dr. Joerg-Peter Elbers, Technology Evolution, Marconi
 Dr. Christoph Glingener, Product Technology and Strategy, Marconi
 Dr. Ken Guild, Network Architecture, Marconi
 Ulrich Kohn, Business Development, Marconi
 Glenn Wellbrock, Product Architecture, Marconi

Intravehicle Computer Networks: Emerging Trends, Protocols, and Obstacles

Paul Richardson, Assistant Professor, Department of Electrical and Computer Engineering, University of Michigan - Dearborn
 Ali Elkateeb, Associate Professor, Department of Electrical and Computer Engineering, University of Michigan - Dearborn
 Larry Seih, Research Associate, Vetronics Technology Area, U.S. Army Tank-Automotive Research, Development, and Engineering Center

NetDist: A Network Distributed Processing Environment Based on Load Sharing

Dr. Mohammed Samaka, Associate Professor/Computer Science, Department of Computer Science, Qatar University

Service Delivery Technologies for Ethernet Networks

Ralph Santitoro, Director of Network Architecture, Nortel Networks
 Don Ellis, Senior Adviser of Optical and OE, Nortel Networks

FTTx*Bridging the Last 100 Meters*

Dave Seddon, Senior Scientist, Corning Cable Systems
 Chris Quinn, Development Engineer, Corning Cable Systems
 Ken Dunn, Product Specialist, Corning Cable Systems

Testing a Network Device Prototype in a Live Network

Bob Zeidman, Founder and President, Zeidman Consulting

Promotion of Physical Frame Timeslot Switching (PFTS) over DWDM

Huaxin Zeng, Professor in Computer Science, School of Computer and Communication Engineering, Southwest Jiaotong University, Sichuan, China
 Dengyuan Xu, Ph.D. Student, Southwest Jiaotong University, Sichuan, China
 Jun Dou, Associate Professor in Computer Science, School of Computer and Communication Engineering, Southwest Jiaotong University, Sichuan, China

Optical Virtual Private Network (OVPN): An Overview

Zhensheng Zhang, Senior Scientist, San Diego Research Center
 Xiaowen Chu, Assistant Professor, Department of Computer Science, Hong Kong Baptist University
 Bo Li, Associate Professor, Department of Computer Science, Hong Kong University of Science and Technology
 Ya-Qin Zhang, Managing Director, Microsoft Research - Asia (MSRA)
 Dr. Nasir Ghani, Assistant Professor, Department of Electrical and Computer Engineering, Tennessee Tech University

Section IV: Packet Networking, Internet Protocol, Multimedia, and the Internet**Integrating MANETs with Mobile IPv6 Networks**

Adel Ali Ahmed, Faculty of Electrical Engineering, Universiti Teknologi Malaysia
 Liza Abdul Latiff, Associate Professor, Electrical Engineering Department, Program for Diploma Studies, Universiti Teknologi Malaysia
 Norsheila Binti Fisal, Associate Professor, Faculty of Electrical Engineering, Telecommunication Department, Universiti Teknologi Malaysia

Convergence at the Network Edge

Five Prerequisites of the New Multiservice Edge Platform Christopher Chartrand, Senior Product Marketing Manager, Nortel Networks

IPv6*An Internet Evolution*

Tim Chown, Lecturer, Researcher, and Systems Manager, Department of Electronics and Computer Science University of Southampton, United Kingdom
 Jeff Doyle, Professional Services Engineer, Juniper Networks
 Gary Hemminger, Vice President of Product Management, IP Infusion Inc.
 Latif Ladid, President, IPv6 Forum
 L-F Pau, General Manager, Network Products Division, Ericsson
 Yurie Rich, Founder and President, Native6, Inc.
 Renice A. Stewart-Pérez, Marketing Communications Manager

Premium IP*On the Road to Ambient Networking*

Paulo de Sousa, Head of Sector, European Commission
 Martin Potts, Director, Martel GmbH

Redefining Service Deployment through Web Services

Brian Demers, Vice President and General Manager, Network Solutions, NMS Communications

Breaking the Video Barrier

Adrian Exton, Director, Vidante Limited

The Fifth Dimension: The Role of Policy Servers in Broadband Networks

Stephen Gleave, Vice President of Marketing, net.com

Playing for Keeps

Joshua C. Hong, Co-Founder and Chief Executive Officer, k2 Network

Christopher M. Koch, Director of Marketing Strategy, SBC

Derek Kuhn, P.Eng., Director of Marketing and Business Development, Information, Communication and Entertainment Group, Alcatel

Jerry Passione, Director of New Market Development, Juniper Networks

Wil Walkoe, Principal Engineer, Industry Standards Group, Sprint, and Vice Chair, BCD Forum

Design of a Secured Autonomous Bootstrap System for Control Networks

Atsushi Inoue, Senior Research Scientist, R&D Center, Communication Platform Laboratory, Toshiba Corporation

Masahiro Ishiyama, Research Scientist, R&D Center, Communication Platform Laboratory, Toshiba Corporation

Kenichi Kamada, Graduate School of Information Science and Technology, Information and Communication Engineering, The University of Tokyo

Shoichi Sakane, Engineer, Ubiquitous Laboratory, Field Security Group, Yokogawa Electric Corporation

Nobuo Okabe, Manager, Ubiquitous Laboratory, Field Security Group, Yokogawa Electric Corporation

Ad Hoc Queries for XML Documents

Kenneth Messa, Professor, Department of Mathematics and Computer Science, Loyola University, New Orleans

Bogdan Denny Czejdo, Provost III Distinguished Professor, Department of Mathematics and Computer Science, Loyola University, New Orleans

A Report on Media Streaming for Large Numbers of Users

Charalampos Z. Patrikakis, Electrical Engineer, Senior Research Associate, Telecommunications Laboratory, National Technical University of Athens

George Koukouvakis, Electrical Engineer, Research Associate, Telecommunications Laboratory, National Technical University of Athens

Alex Lambiris, Mathematician, Research Associate, Telecommunications Laboratory, National Technical University of Athens

Nikolaos Minogiannis, Computer Engineer, Research Associate, Telecommunications Laboratory, National Technical University of Athens

VoIP over Wireless

Glenn Pollock, Product Manager, Wi-LAN

What about P2P?

Interfacing and Planning for P2P

Oren Raboy, Director, Product Marketing, P-Cube Inc.

IP Route Analytics

A New Foundation for Modern Network Operations

Jeff Raice, Executive Vice President Sales and Marketing, Packet Design

Embedded or Standalone?

Implementation Options for the PacketCable Multimedia Terminal Adapter

Mariano Schain, Chief Software Architect, Cable Broadband Communications Business Unit, Texas Instruments

Manoj Sindhvani, Director of CPE Applications, Voice over Packet Broadband Communications Business Unit, Texas Instruments

Synchronization for Improving VoIP Quality

Kishan Sheno, Chief Technologist, R&D, Symmetricom

Jim Olsen, Director, Business Development, Symmetricom

IP/MPLS Broadband Service Aggregation Networks

The Choice for the Next Generation

Risto Soila, Senior Staff Engineer, Tellabs International

Softswitch

The Core of Multimedia Enabled Architectures

Michelle Specktor, Co-Founder, Gallery IP Telephony, Inc.

The Move to a Public IP Multimedia Network (PIMN)

Michael Tadault, Mobile Internet Product Manager, Core Network Product Management, Alcatel Mobile Solutions

Sajid Soormally, Mobile Solutions Innovation Manager, Core Network Product Management, Alcatel Mobile Solutions

SIP in Carrier Networks Update

Members of the VASA Technical Committee

Will Technology Issues Spoil the VoIP Party?

Juan Villamil, VoIP Subject Matter Expert, Communications and High Tech Group, Accenture

Dynamic Network Topologies and Secure Multimedia Routing

Subbarao V. Wunnavu, Professor, Electrical and Computer Engineering, Florida International University

Anil Saka, Research Associate, Electrical and Computer Engineering, Florida International University

The Structures of JSP-Based Web Applications

Chong-wei Xu, Computer Science and Information Systems, Kennesaw State University

Automated Multiresolution Video Partitioning in Raw and Compressed Video Databases

Dr. Haifeng Xu, Senior Staff Engineer, Advanced Technology, Broadband Communications Sector, Motorola

Dr. Essam El-Kwae, Assistant Professor, Department of Computer Science, University of North Carolina - Charlotte

Dr. Akmal Younis, Assistant Professor, Department of Electrical and Computer Engineering, University of Miami

Dr. Mansur Kabuka, Professor, Department of Electrical and Computer Engineering, University of Miami

Section V: Wireless**The Rapid Evolution of WLAN Security**

Jim Burns, Senior Software Engineer, Meetinghouse Data Communications

Signaling Protocols for Wireless ATM Networks

Anthony Burrell, Professor of Computer Science, Computer Science Department, Oklahoma State University

Titsa Papantoni, Professor of Electrical Engineering, Electrical Engineering Department, University of Colorado at Denver

WLAN Security and Wi-Fi Protected Access

Derek Cheung, Director and Principle Consultant, CLC Technology Group

Standards for the Wireless Internet

Todor Cooklev, Professor, Electrical Engineering, School of Engineering, San Francisco State University

Wideband Coplanar Waveguide-Fed Printed Monopole with Parasitic Elements for Wireless Communications

Yacouba Coulibaly, Ph.D. Student, INRS - E.M.T, Quebec, Canada

Tayeb A. Denidni, Professor, INRS - E.M.T, Quebec, Canada

Larbi Talbi, Professor, Department of Computer Science and Engineering, University of Quebec - Outaouais

Wireless Network Security

Partha Dasgupta, Associate Professor, Department of Computer Science and Engineering, Fulton School of Engineering, Arizona State University

Tom Boyd, Lecturer, Department of Computer Science and Engineering, Fulton School of Engineering, Arizona State University

Novel Methods: Improvements in Wideband Wireless Communications

István Frigyes, Professor, Budapest University of Technology and Economics

Case Studies

NLOS Broadband Wireless Deployments in Large Urban Markets and Low-Density Business and Residential Rural Markets

Stuart Froelich, Founder and Director, RF Services, NextNet Wireless

An Architecture for a Mobile Ad Hoc Network

Irvin R. Jones, Jr., Assistant Professor, Department of Engineering, School of Engineering and Computer Science, University of Denver

Samir Nanavati, Graduate Student, Department of Engineering, School of Engineering and Computer Science, University of Denver

Fundamentals of Wireless Security

Stephan Jones, Professor, Institute for Wireless Innovation, Center for Information and Communication Sciences, Ball State University

Nicholas Chandler, Research Associate, Institute for Wireless Innovation, Center for Information and Communication Sciences, Ball State University

Cecelia Currin, Research Associate, Institute for Wireless Innovation, Center for Information and Communication Sciences, Ball State University
 John King, Research Associate, Institute for Wireless Innovation, Center for Information and Communication Sciences, Ball State University
 Anisha Yadlapalli, Research Associate, Institute for Wireless Innovation, Center for Information and Communication Sciences, Ball State University

On Optimum Order of Angle Diversity with Maximal Ratio Combining Receivers for Broadband Indoor Optical Wireless Communications

Mohsen Kavehrad, Professor, Department of Electrical Engineering, Center for Information and Communications Technology Research (CICTR), The Pennsylvania State University
 Yazan Alqudah, Department of Electrical Engineering, Center for Information and Communications Technology Research (CICTR), The Pennsylvania State University

Mobile Network Access Solutions

Edward Minyard, Partner, Unisys

Piecing Together a Mishmash of Wireless Technologies

Brian Modoff, Research Analyst, Deutsche Bank Securities, Inc.
 Michael Thelander, Research Analyst, Deutsche Bank Securities, Inc.

Universal Communicator

Next-Generation Wireless Handset

Vijay Nair, Principal Engineer, Corporate Technology Group, Intel Corporation
 Brian Peebler, Senior Business Development Engineer, Corporate Technology Group, Intel Corporation
 Jerzy Kolinski, Senior Engineering Manager, Corporate Technology Group, Intel Corporation
 Roger Hurwitz, Senior Engineering Manager, Corporate Technology Group, Intel Corporation
 Vittal Kini, Director, Research Platform Lab, Corporate Technology Group, Intel Corporation
 Shane Wall, Director and Vice President, System Technology Lab, Corporate Technology Group, Intel Corporation

Enabling an Always Best-Connected Defined 4G Wireless World

Máirtín S. O'Droma, Ph.D., Senior Lecturer, ECE Department, University of Limerick, Ireland
 Ivan Ganchev, Ph.D., Lecturer, ECE Department, University of Limerick, Ireland

LMDS Overview and Applications

Vijay Patel, Senior Marketing Director, Hughes Network Systems, Inc.

An Innovative RF CMOS IP Using a 10 GHz VCO for Direct Conversion WLAN

Laurent Perraud, RF System Engineer, NewLogic Technologies
 Marc Recouly, RF System Engineer, NewLogic Technologies
 Christophe Pinatel, RF IC Manager, NewLogic Technologies
 Jean-Louis Bonnot, RF Design Engineer, NewLogic Technologies
 Nicolas Sornin, RF Design Engineer, NewLogic Technologies
 Frederic Benoist, Analog Design Engineer, NewLogic Technologies
 Olivier Gibrat, RF Design Engineer, NewLogic Technologies
 Myriam Massei, Analog Design Engineer, NewLogic Technologies

Wireless Communication

Status and Future Perspectives

G.V.S. Raju, Life Fellow, Institute of Electrical and Electronics Engineers
 Peter T. Flawn, Professor, Department of Electrical Engineering, University of Texas at San Antonio
 J. Charoensakwiroj, Department of Electrical Engineering, University of Texas at San Antonio

Network Interface Switching in Integrated Wireless LAN Hotspot and Cellular Network

Minghui Shi, Research Assistant, Department of Electrical and Computer Engineering, University of Waterloo
 Xuemin (Sherman) Shen, Professor, Department of Electrical and Computer Engineering, University of Waterloo
 Jon W. Mark, Distinguished Professor Emeritus and Director, Centre for Wireless Communications, Department of Electrical and Computer Engineering, University of Waterloo

Wireless Local-Area Networks and Application

Narasimhan Srinivasan, Ph.D., Associate Professor of Marketing, University of Connecticut

RF/Fiber Extension for Wireless Base Stations

Cedric P. Taylor, Product Marketing Director, Celerica

Handsets: Meeting the Challenges of Design and Interoperability

Danny Topper, Product Marketing Director, Emblaze Semiconductor

Optimal and Suboptimal Serial Code Acquisition Schemes for Chip-Asynchronous Direct Sequence Spread Spectrum Communications

Seokho Yoon, Full-Time Lecturer, School of Information and Communication Engineering, Sungkyunkwan University

Sun Yong Kim, Assistant Professor, Department of Electronics Engineering, Konkuk University

Section VI: Operations, Quality Control, and Security**Designing IDSs: Architectures and Perspectives**

Srinivas Mukkamala, Ph.D. Student, Department of Computer Science, New Mexico Tech

Andrew Sung, Ph.D., Professor and Department Chair, Department of Computer Science, New Mexico Tech

Ajith Abraham, Ph.D., Assistant Professor, Department of Computer Science, Oklahoma State University

Operational Convergence for Mobile Operators

Reducing OPEX through OSS Integration: Standards and Best Practices

Richard Arthur, Senior Manager, OSS Strategy and Marketing, Operational Support Systems, Hewlett-Packard

Intrusion Detection for Viruses and Worms

Thomas M. Chen, Department of Electrical Engineering, Southern Methodist University

Interarrival Packet Jitter Analysis of Constant Bit-Rate Traffic in Wireless Differentiated Services Networks

Dr. Jong-Moon Chung, Director, ACSEL and OCLNB Laboratories, Assistant Professor, School of Electrical and Computer Engineering, Oklahoma State University

Dr. Wun-Cheol Jeong, Research Assistant Professor, ACSEL and OCLNB Laboratories, Oklahoma State University

Ms. Hooi Miin Soo, Research Assistant, ACSEL and OCLNB Laboratories, Ph.D. Candidate, School of Electrical and Computer Engineering, Oklahoma State University

Performance of Communication Networks Fielding Bursty Data Traffic

G. R. Dattatreya, Associate Professor, Department of Computer Science, University of Texas at Dallas

Sarvesh S. Kulkarni, Assistant Professor, Department of Electrical and Computer Engineering, Villanova University

Biometric Authentication Systems: Are You Really Who You Claim to Be?

Sandeep Dhameja, CISSP

Delivering Telecommunication Services with Customer-Focused Service Assurance

Patrick J. Donnelly, Head of Solutions Engineering, EMEA, Telcordia Technologies

Network Resilience Audit

Arthur Foster, Transmission Systems Consultant and Principle Member, Discovery Consultancy Association

Richard Proctor, Telecoms and Internet Consultant and Principle Member, Discovery Consultancy Association

Paul Smith, Telecoms Management Consultant and Principle Member, Discovery Consultancy Association

Better Knowledge and Accelerated Development: Knowledge Structures, Tools, and Techniques to Build Collaborative Community

Jay Edwin Gillette, Ph.D., Professor of Information and Communication Sciences, Center for Information and Communication Sciences, Ball State University

Broadband OSS Service Management Systems

Enabling Revenue Generation, Operational Automation, and Cost Reduction
Preston Gilmer, Director of Product Management, OSS Operations, Liberate Technologies

No-Reference Digital Video Quality Analysis

H. R. Myler, Ph.D., P.E., Professor and Chair, Lamar University

Jing Guo, D.E., Visiting Assistant Professor, Northern Arizona University

Michele VanDyke-Lewis, Ph.D., Senior Imaging Scientist, TeraNex, Inc.

Designing and Implementing Security in Wireless LANS

Dick Hibbard, Vice President of Engineering, Fortress Technologies, Inc.

Strategic Use of Multiple OSS Data Sources*How to Get More from Your Network*

Matt Izzo, Strategic Planning, New Generation Operations, Agilent Technologies

A Practical Approach for OSS Development

B. Brahma Reddy, Chief Technology Officer, DishnetDSL Limited

M.D. Jagdeesh Kumar, Assistant Manager, DishnetDSL Limited

S. Vijaya Sekar, Project Manager, DishnetDSL Limited

C. Shenbagam, Senior Manager, DishnetDSL Limited

Moin Uddin, HOD EE Department, Jamia Milia Islamia University

OSS through Java APIs Leap from Designs and Downloads to Implementations*Demand for Flow-Through Automation, Integration, and Scalability Creates Demand for Component Software*

Peter Lambert, Independent Consultant and Journalist

Bill Wilbert, Communications Manager, The OSS through Java Initiative

Aggressive Model-Driven Development for the Management of Service Evolution

Dr. Ing. Tiziana Margaria, Associate Professor and Head of the Service Engineering for Distributed Systems Group, Institute of Informatics, Faculty of Mathematics,

University of Göttingen, and Managing Director, METAFramework Technologies

Dr. Bernhard Steffen, Full Professor and Chair of Programming Systems, Faculty of Computer Science, University of Dortmund, and Scientific Director, METAFramework Technologies

Putting the 'D' Back into Design for Test

Dr. Ralph Marlett, Product Director, Atrienta Inc.

Assuring QoE on Next-Generation Networks

Phil Odence, Director of Business Development, Empirix

An Integration Framework for Next-Generation Service Providers

John Reilly, Principal Member of the Technical Staff, Metasolv Software
